SUMMARY OF COMMUNICATION

Paul called to see what our comments were on the revised closure plan. I told him that we needed to clarify that the sludge will be handled as a hazardous waste. We discussed gw monitoring & pub. notice for closure plan. MDNR would like to see gw monitoring to determine the extent of contamination. MDNR thinks that monitoring 20' down would be adequate, & that an alternate gw monitoring program would get the needed info.

MDNR did not have any problems w/ the closure plan as submitted.
